- ✓ Network monitoring
- ✓ 1000+ correlation rules database

Your ONE-STOP for Security and Compliance

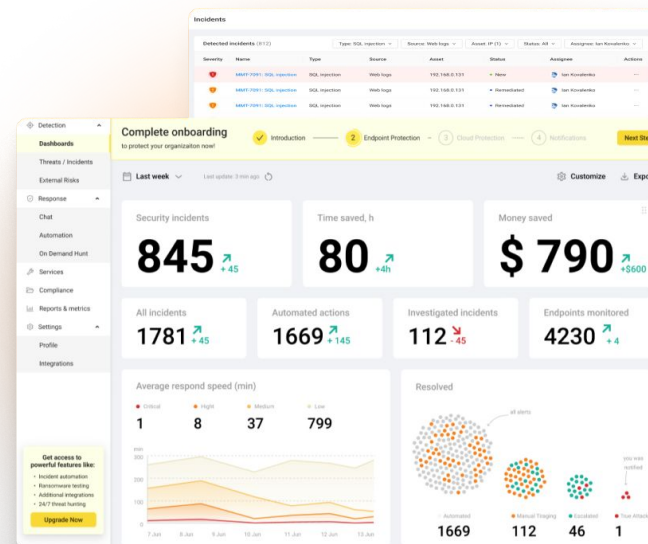

Under Defense Security-as-a-Service Platform

Added value portal for our MDR customers that provides:

- ✓ full security posture visibility
- ✓ direct hotline with Concierge Team
- ✓ possibility to conduct on-demand hunts
- ✓ dynamic reporting on compliance, vulnerabilities, operational security at your fingertips at any time, and many more features

We made cybersecurity simple, affordable, and consistent through the unification of currently disjointed security tools from a variety of vendors to fully visualize, correlate through AI, and automatically detect, investigate, and respond to all possible attacks.

Our Compliance, XDR/MDR & Incident Response Automation solution for cloud, hybrid, and on-premise environments allows for preventing breaches in minutes not hours and illuminates the consequences of the most sophisticated attacks.

UnderDefense is a global leader in cybersecurity solutions. We are ISO27001 certified in cybersecurity, privacy and data protection. Our mission is to assure greater Cyber Resiliency and business continuity for small and medium-sized enterprises. Worldwide.
